Subject: WSMC&E Presentations are online

Folks,

It took four months, but your WSMC&E presentations are now available at the SMA web site ([www.shipmodelersassociation.org](http://www.shipmodelersassociation.org)). Each of the eight displayable presentations is posted as a PDF file (so the content is harder to steal) and includes an initial header slide identifying it as from the conference. The header also deals with copyright issues as best as I can. For those of you who are Seawatch authors, the header references your book, and Bob has approved the header page and the posting of any images he may hold copyright to.

You can find your presentation under the letter "W" in the Research Room at the site or by entering your last name in the search box. There is also a brief article on the home page pointing to the new postings.

I'd like to claim that the four months delay was to increase the value of the attendees' registration fees, but the truth is that it just took me that long to get them posted!

Thanks again for your participation in the conference and for your willingness to have your presentations posted.

Best,  
Doug Tolbert
